Make Your Own Cardboard Disentanglement Puzzle

(only for your private use!)

- Print out the models below and paste them on to a cardboard, then cut the pieces out.
- Make a slit in the first piece by cutting the dotted lines. Then, glue its both ends together to make a hoop.
- Now, if you follow the directions shown in our site, you should be able to assemble this puzzle without any problem.
- To make the puzzle is very simple, but now you have to solve it! Separate the sword from the crown (fig 1a and b)...

Before...

...and after!
